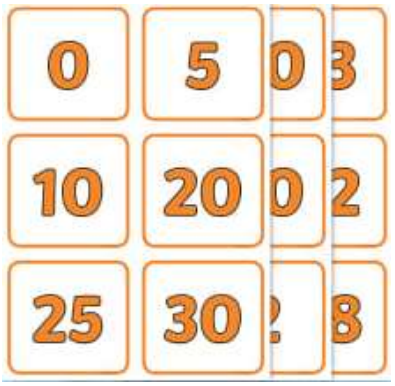
Dear Parents/Carers,

As part of our ongoing Maths learning, pupils in Year 2 are focusing on important key instant recall facts (KIRFs) this term. These are essential for building speed, confidence and fluency in calculations.

Year 2 KIRF: Recall number bonds to 50.

To support your child at home, you could try some of the following activities:

- Use coins to find different ways to make 50.
- Have children write out a 0-50 number line. Choose a starting number, have children use counters or small toys to count the jumps to 50.
- Snap: Write 0 – 50 on scraps of paper. Children to match the number cards to the correct bond e.g. match 10 and 40.



Regular practise at home will help your child gain confidence and fluency which in turn supports more complex calculations in school.

Thank you for your continued support in helping your child develop these essential skills.

Kind regards,

A. Thomas
