Friday 6th November, 2026

Dear Parents/Carers,

As part of our curriculum work, pupils have a home learning project to complete this half term which is due in by **Friday 11th December**. They may choose one activity related to our learning in Science, History or Art.

Science – Light

- **Light and Shadows Investigation:** Investigate how shadows change when a light source moves closer to or further away from an object. Record your observations using drawings, photographs or a short report.
- **Light Detectives:** Explore how light is used in everyday life. Create a poster or fact file explaining how we see objects, how light travels and why reflections and shadows occur.

History – Crime and Punishment

- **A Day in a Tudor Courtroom:** Imagine you are living in Tudor times. Create a courtroom scene, comic strip or short play showing someone accused of a crime. What was their crime? How were they tried? What punishment might they receive?
- **Crime and Punishment Museum:** Design your own mini museum exhibition about crime and punishment in the past. Create models, drawings or information cards showing historical punishments, objects or methods of keeping law and order.

Art – Architecture

- **Amazing Architecture:** Research a famous building or architect. Create a detailed drawing, painting or fact file explaining what makes the building special. Think about its shape, materials, patterns and design.
- **Become an Architect!** Design your own dream building! It could be a house, school, castle or something completely imaginative. Draw a labelled design or build a 3D model using recycled materials. Think carefully about the shapes, structures and features you include.

We encourage your child to be creative, ask questions and enjoy exploring these exciting topics at home. Projects may be completed by hand or using a computer.
If you have any questions, please do ask.

Kind regards,

S. Marlow
